

Annual Report

Rafa Nadal Foundation 2024-2025

We believe in the transformative power

of sport

This academic year has been especially enriching and filled with moments that will remain in our memories forever. Through our four projects, we have accompanied children and young people in their personal development, using sport as a tool that transforms lives. The commitment and effort of everyone involved have allowed us to witness how each day they gain confidence, overcome obstacles, and strengthen their dreams of building a better future.

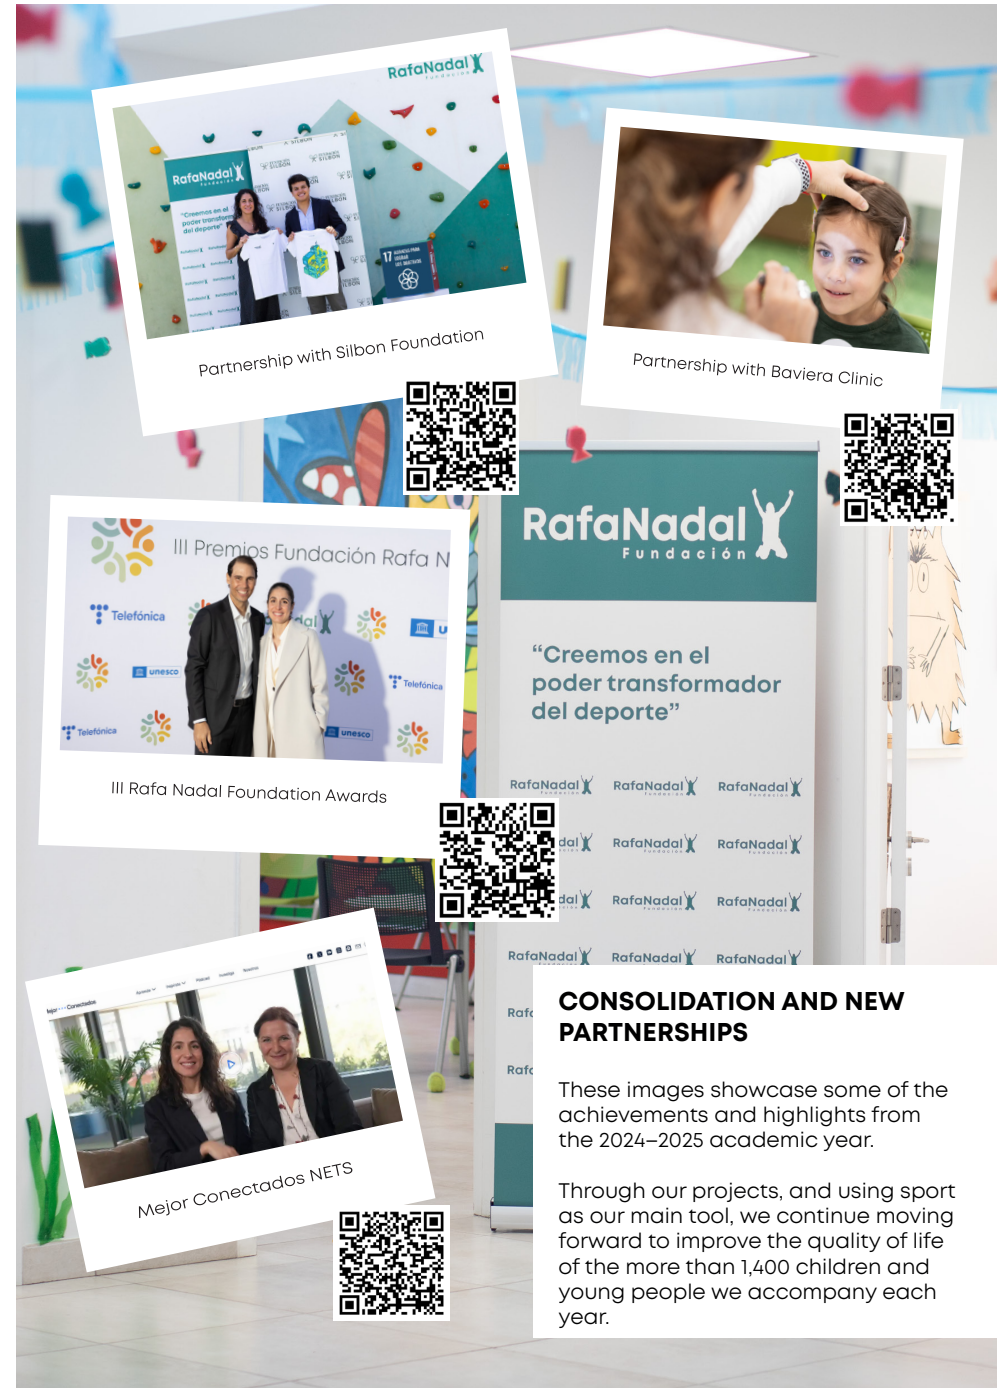

We are proud of the growth of the **Rafa Nadal Foundation Awards**, which in their three editions have already recognized 15 organizations for their outstanding work. Seeing the enthusiasm they generate and the impact they are having is a huge motivation to keep moving forward.

This year, we have consolidated new partnerships, such as the one established with **Fundación Silbon** to raise awareness among children about sustainability and caring for the environment. We have also carried out eye exams at our three centers thanks to the support of **Clinica Baviera**, and we continue working on strengthening our child and adolescent protection framework.

We have also commemorated the **15th anniversary of the NETS project** with a special feature, **“Mejor Conectados”** and successfully concluded the **Study&Play project**, which for a decade has supported young student-athletes. The rest of our projects continue to move forward with strength, reaffirming our belief that sport and education are key to changing lives.

Thank you to everyone who makes this possible: partners, allies, families, and above all, the children and young people who inspire us every day and remind us that every effort is worthwhile.

TRANSFORMATIVE IMPACT

For fifteen years, the Rafa Nadal Foundation has worked with a clear goal: to create real opportunities for personal and social development for children, adolescents, and young people in vulnerable situations.

Each year, we renew our commitment by broadening horizons and strengthening the comprehensive support we offer through our projects.

The 2024–2025 academic year has been no exception: we have directly supported a total of 1,429 beneficiaries through our four main programs. This impact is reflected not only in numbers but also in hundreds of stories of overcoming challenges, growth, emotional well-being, and access to opportunities that otherwise would have been out of reach.
